

## Peaceable Kingdom Review and Giveaway! (US only)

Kristen here with a great giveaway. [Peaceable Kingdom](#) is here to rejuvenate family game time! For my review, I was able to select one of their [Cooperative Games](#) to review with my family. We chose the game [Stone Soup](#) (and yes, like the name implies it is based on the popular Stone Soup story).

This game is so much fun! It has become an instant family favorite. In fact, the other night, we played it outside on our patio. We play it several times a week. We love it because it is challenging, but in a good way. It is easy to learn, easy to play and completely encourages teamwork. The game says ages 5+ but really, if you partnered older siblings with younger siblings etc. I think it would work for ages 2+.

[Peaceable Kingdom](#) has five new cooperative games:
